Library Services

Magazines, Journals, and Newspapers

The Library has access to a large number of articles from magazines, journals, and newspapers. The majority of these articles and publications are available via the library’s electronic databases and patrons are invited to access them online.

The Library maintains a small collection of print serials that are not available electronically. All print magazines and journals, including current issues and back issues up to 1 year, are available for use in the Library only. Photocopying is permitted.
